

/ : Baltasar Aguirre

FullStack Developer

In constant search for self-realization, professional growth and continuous improvement. Fan of teamwork, sociable and collaborative

Projects

- Currently developing as a Fullstack (end-to-end) on a team with colleagues from India, Portugal, Mexico and Argentina, working together in the development and maintenance of an E-Learning platform, now in production stage. Implementing optimal and scalable solutions, with a focus on clean code and good practices, under agile Scrum methodology.
- FullStack developer for a team working together with CreativeDrive Latam - Accenture. Realization of a web and mobile application for bank customer loyalty program, under agile Scrum methodology, using React Native & Microservices Backend architecture.
- Development of an E-Commerce as a Final Project at the Henry Bootcamp for La Montañés, a craft beer manufacturer in Córdoba, Argentina. App made in a group under the agile Scrum methodology, using the MERN Stack.
- Development of a Single Page Application on Countries of the World, which consumes data from an external API, stores it and displays it to the user, with a variety of filters, ordering modes and controlled forms, using the PERN stack.

Speaks

- Portuguese Intermediate
